Innovative Strategies for Managing Esophageal Disorders in Children: Recent Findings and Clinical Applications

Guest Editor:

Dr. Akiko Yokoi

Department of Pediatric Surgery,
Hyogo Prefectural Kobe
Children's Hospital, Kobe, Japan

Deadline for manuscript
submissions:

5 November 2024

Message from the Guest Editor

Esophageal disorders encompass a spectrum of conditions that affect the esophagus, including gastroesophageal reflux disease (GERD), achalasia, and Barrett's esophagus, as well as esophageal atresia (EA) and tracheoesophageal fistula (TEF). GERD, achalasia, and Barrett's esophagus commonly manifest as heartburn or swallowing difficulties and pose an increased risk for esophageal cancer. The aim of this Special Issue is to gather and share recent knowledge on the management of comorbidities associated with esophageal disorders of Children. We welcome manuscripts of various types, including reviews and original articles, that focus on new and innovative approaches or address rare but critical conditions associated with esophageal disorders. Contributions from basic science research are also encouraged. We eagerly anticipate receiving your submissions and sharing them with our readers.
