Message from the Guest Editors

Dear Colleagues,

Considering the challenges of the health system regarding the increased prevalence of mental health disorders in patients with increasingly younger ages, we consider that the launch of a new Special Issue that addresses the mental health of children and adolescents is incredibly necessary.

We are now releasing a Issue aiming to highlight recent advances, innovative views on diagnosis, therapeutic approaches, and novel standards regarding neurodevelopmental disorders, conduct disorders, psychotic disorders, addictive disorders, and depressive/anxiety disorders diagnosed in children or adolescents. We also encourage submissions that explore the influence of psychiatric diagnosis on family or siblings' functionality. On behalf of the Editorial Office, we invite you to submit research papers, review articles, and interesting case reports for peer review and possible publication.
