Message from the Guest Editors

Much of the water we use comes from subsurface area. It is necessary to learn more knowledge about the importance of groundwater, the threats to its safety, and how to protect its sources during Groundwater Awareness Week. Water is one of the world's most precious natural resources. People use water every day for many activities, such as drinking, bathing, recreation, agriculture, cooling, manufacturing, and medical uses. Although water plays an essential role in everyday life, many people do not realize that much of their water comes from subsurface area. Meanwhile, groundwater quality, remediation, and management should be a point of focus. This Special Issue will highlight cutting-edge empirical studies that focusing on impact of groundwater resource on children. In this Special Issue, we welcome original research articles, literature and systematic reviews, and meta-analysis articles.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
