Message from the Guest Editor

Lesbian, gay, bisexual, and transgender (LGBT) care journeys are special experiences, and even more so when it comes to children and adolescents. The health of LGBT youth has been (and is still being) considerably impacted by the COVID-19 pandemic. However, beyond this long period of crisis, what have been the latest developments in the care and support of LGBT youth? The scientific community needs benchmarks on a wide variety of issues, including rejection and stigma, worsening of psychological and physical (including sexual) violence, improvement in surgical techniques, tensions (and misunderstandings) in the context of indigenous communities, "pinkwashing", identification of gay-friendly health practitioners (and banning of practitioners with harmful practices toward LGBT youth), new health issues, etc. How can and should the post-COVID society be even more inclusive with regard to LGBT youth? Why is the health of LGBT people (especially that of young people) still a medical taboo in many geopolitical contexts?

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MI 65201, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
