Message from the Guest Editor

Dear Colleagues

I am delighted to serve as Guest Editor of a Special Issue of *Children* entitled “Advances in Oral Health and Dental Care of Children”.

Pediatric dentistry includes knowledge of the diagnostics, clinical and instrumental factors, pathophysiology and preventive and therapeutic aspects of dental pediatric patients. The objectives to be pursued are the identification of advanced diagnostic pathways which can help to define the various types of oral diseases in the developmental age and the acquisition of specific skills for prevention, interception and treatment.

The goal of this Special Issue is to discuss any aspects of oral health with a multidisciplinary approach, using new technologies and digital systems.

We are seeking submissions of review articles, original research and contributions developed with innovative methods.

Thank you in advance to all those who submit a contribution.
