Message from the Guest Editor

It is my pleasure to present this Special Issue of *Children* on “Cutting-Edge Research on Pediatric Gastroenterology”. As the editor of this issue, I look forward to collaborating with experts on a variety of topics important to the pediatric community.

The field of pediatric gastroenterology has undergone an incredibly fast development in the past 20 years. Basic and clinical science have taken gigantic steps forward. New drugs, treatments, and diagnostic tools have entered our clinical practice, and we have gained a new perspective on many diseases.

I hope the papers in this edition will help to highlight the cutting-edge work in this field and am pleased to invite you to contribute to this Special Edition of *Children*.
