Deadline for manuscript  
submissions:

**15 September 2024**

### Message from the Guest Editor

Dear colleagues,

Biomedical innovations in the care of children and adolescents living with type 1 diabetes have revolutionized both diabetes care and diabetes self-management (e.g., CGMs, insulin pumps, closed loop systems, new insulin analogs, etc.). In addition, there have been equally innovative and life changing interventions in the psychosocial and behavioral aspects of type 1 diabetes in children and adolescents. This Special Issue will focus on the innovations in the “lived experiences” of children and adolescents living with type 1 diabetes, including interventions that contribute to lifting the burden of a disease, interventions that improve both health and psychosocial outcomes, interventions that increase access to the highest level of care, and interventions that improve the overall quality of life for these children and adolescents.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
