4, 00165 Rome, Italy

Deadline for manuscript  
submissions:

**closed (25 November 2022)**

### **Message from the Guest Editor**

The experience of pain is likely to be distressing for both the child and their family when it is not well understood.

A key element in chronic pain management is providing information about pain to patients, their families and their treating physicians, including a biopsychosocial picture and basic concepts of pain neurobiology. There are, however, many questions about how to best share information with young people and their families so that pain-related outcomes are understood and improved. The treatment of chronic pain usually requires a multidisciplinary approach that integrates pharmacological and non-pharmacological strategies.

The goal of this Special Issue in *Children* is to highlight recent advances in information provision and preparation in the context of children's pain management. We welcome reviews and original research considering novel approaches, as well as identifying gaps in knowledge. We also encourage submissions that explore how social and cultural factors, past pain experiences, and individual differences can affect the experience of pain.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
