closed (10 February 2024)

Message from the Guest Editor

Dear Colleagues,

Research in all aspects of paediatric liver diseases remains sparse, with much of our current knowledge based on extrapolations from adult studies or data from single centres focusing on single conditions. Given the heterogenous group of hepatic disorders encountered within childhood, more extensive research is required to not only uncover the aetiology of these conditions but also to provide evidence-based treatment pathways and details on the natural history and management of these often-rare diseases into adulthood. We wish to invite you and your colleagues to contribute to our upcoming Special Issue of *Children* (Impact Factor 2.8), focusing on all aspects of liver disease in children to highlight data and advances on causes and treatment and to help design prospective studies to answer fundamental questions in this field.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
