Message from the Guest Editor

Dear Colleagues,

This Special Issue's primary focus is on the diagnosis, management, and treatment of patients with neurodevelopmental disorders, including autism spectrum disorder, ADHD, intellectual disability, specific learning disorders, specific language impairment and motor disorders.

The multitude of neurodevelopmental disorders span a wide range of associated symptoms, resulting in different severity levels of mental, emotional, physical, and economic consequences for affected individuals, and in turn for their families, social groups, and society. For this reason it is important to investigate the symptoms' nature of neurodevelopmental disorders, in order to support clinicians in performing a correct diagnosis that will allow the implementation of appropriate psychological or pharmacological treatment strategies.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
