Message from the Guest Editors

Dear Colleagues,

Pediatric obesity continues to be a critical public health issue due to its high prevalence and medical and psychological impacts. Despite great strides in the prevention and treatment of pediatric obesity, there continues to be high rates of overweight and obesity in youth. The goal of this Special Issue in *Children* is to highlight recent scientific advances examining associations between pediatric obesity and/or disordered eating in children and adolescents, as well as advances in treatment approaches for pediatric obesity or disordered eating in youth. We invite manuscripts focused on young children through emerging adults, and both healthy groups as well as samples that are overweight/obese. We welcome reviews and original research focused on novel interventions, as well as those that identify gaps in knowledge. Submissions that focus on key outcomes related to pediatric obesity and disordered eating, such as weight status, dietary intake, and eating behaviors are also welcome, as are process evaluations that describe the development of approaches that will advance the treatment of pediatric obesity and/or disordered eating.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
