Message from the Guest Editors

Procedures in the neonatal period are associated with increased risks. With the progress in neonatal intensive care techniques, survival in extremely low birth-weight preterm infants continues to improve. Recent advances in resuscitative, diagnostic, and therapeutic choices for congenital and acquired heart disease in this cohort have considerably developed. We invite original research (both clinical and translational) and review articles highlighting these innovations. Manuscripts addressing challenges and techniques to decrease adverse events and improve outcomes will be considered. We also invite case reports and series followed by a discussion that may stimulate the creation of new hypotheses and the advent of new research.

Deadline for manuscript
submissions:
closed (31 August 2021)

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
