Deadline for manuscript  
submissions:  
**closed (10 August 2022)**

### Message from the Guest Editors

Dear Colleagues,

Inflammatory bowel disease (IBD) is a chronic and relapsing disease affecting a growing number of children in the United States. Crohn's disease (CD) and ulcerative colitis (UC) are the two most common forms of IBD, both causing chronic inflammation to the gastrointestinal tract. Research has shown an intimate connection between the brain and the gut. Psychosocial factors are strong predictors of negative health outcomes in pediatric IBD, such as risk of relapse, disease activity, nonadherence, healthcare utilization, and higher healthcare costs. Children with IBD are also at an increased risk of emotional/behavioral challenges and poorer quality of life compared to other youth with chronic health conditions, and these challenges have shown strong links to health outcomes. An integrated multidisciplinary care model for the treatment of pediatric IBD is increasingly common and deemed essential for optimal care. This Special Issue is dedicated to describing the evidence for, and application of, integrated biopsychosocial IBD care. This Special Issue will accept original research and reviews.

## Editor-in-Chief

### **Prof. Dr. Paul R. Carney**

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
