Medicine, Department of
Pediatrics, Baylor College of
Medicine, Houston, TX 77030,
USA

Message from the Collection Editor

Dear Colleagues,

We are hoping to create a broad-based, international, interdisciplinary collection of essays on the problems in Pediatric Palliative Medicine—as noted by Dr. Friederichsdorf, only a fraction of the 21 million children with life-limiting or life-threatening disorders requiring palliative care receive adequate symptom relief and other important interventions by trained healthcare professionals, and that was before this unprecedented time in the history of humanity, when natural disasters and civil unrest in many low-income and middle-income countries have caused the forced displacement of millions of families throughout the globe, with the attendant disruptions in basic healthcare provision. Our vision is to update palliative aspects of neonatal and pediatric specialty care; recognize factors contributing to physical and psychosocial suffering in babies, school-aged children, adolescents and young adults transitioning to adult-based health care; and to explore ways to foster resilience in our patients and in their families, in our healthcare systems, and in ourselves.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
