submissions:

closed (5 February 2022)

Message from the Guest Editor

Pediatric rehabilitation is a medical subspecialty that helps children with a disability and those at risk of a disability due to a disease or accident in early childhood before growth and development are complete to minimize the effects of their disability and help them to develop appropriately for their age. The diseases in which pediatric rehabilitation can be applied include cerebral palsy, muscular dystrophy, traumatic brain injury, developmental delay, and other neurological and orthopedic problems. This Special Issue, titled “Physical Medicine and Rehabilitation in Children”, covers advances in knowledge and presents the results of novel research on diagnostic, prognostic, and therapeutic methods for the above-mentioned diseases. We anticipate that this Special Issue will help medical staff working in pediatric rehabilitation departments to advance their practical knowledge on diagnosis, prognosis, and treatment. We also hope that papers published in this Special Issue will generate ideas for new lines of research among researchers working in the field of pediatric rehabilitation.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
