Lazer de Melgaço, Instituto  
Politécnico de Viana do Castelo,  
Melgaço, Portugal

**Prof. Dr. Rita Cordovil**

CIPER, Faculdade de Motricidade  
Humana, Universidade de  
Lisboa, Cruz Quebrada Dafundo,  
Portugal

Deadline for manuscript  
submissions:

**closed (1 March 2021)**

### Message from the Guest Editors

Childhood it is all about change. To understand how to seize the opportunities that change offers for the development of children's motor performance, with a lifelong impact, has long been a goal of sports science researchers. In this context, science has progressed a great deal in the last several decades. However, we are also keener to understand the problems and limitations that children, particularly some children, face in their development path.

The goal of this Special Issue of *Children* is to highlight recent advances in sports sciences related to this amazing period of childhood. The intended scope of the Special Issue is broad enough to accommodate different areas of expertise and research, as long as they share this common interest in advancing our knowledge on the mechanisms, pathways, and correlates of motor behavior during childhood. We welcome reviews and original research papers, as well as manuscripts identifying gaps in knowledge. We also encourage submissions that explore social and cultural factors, clinical experiences, pedagogical approaches, and methodological essays on the theme.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
