Message from the Guest Editors

Dear Colleagues,

It is my great honor to serve as a guest editor of this Special Issue of Children entitled *Diagnosis, Treatment, and Prognosis of Surgical Diseases in Children*.

Surgical diseases in infancy and childhood encompass a wide range of conditions including congenital disorders, acquired/infectious diseases, trauma, and pediatric oncology. A thorough understanding of the presentation, diagnosis, treatment, post-operative management, and follow-up/transitional care is imperative for practitioners of various specialties to maintain a high standard of care, providing optimal outcomes for our patients.

The goal of this Special Issue is to present original research, reviews, clinical studies, brief reports, case reports, and editorials covering the advances and innovations in diagnostic approaches, multidisciplinary management, and translational and basic research regarding surgical diseases in infancy and childhood.

I look forward to receiving your contributions.

Special Issue

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MI 65201, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.
Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
