Department of Family Medicine, College of Human Medicine, Michigan State University, Grand Rapids, MI 49503, USA

Deadline for manuscript submissions:

closed (15 July 2021)

Message from the Guest Editors

Dear Colleagues,

Digitally delivered healthcare is rapidly expanding across pediatrics, and specifically in behavioral medicine. The proliferation of digital management (e.g., eHealth, mHealth, and telehealth) and data collection (e.g., wearable sensors, ecological momentary assessment, and passive mobile sensing) systems, as well as novel adaptive clinical trial designs, has shifted the way we think about engaging with patients, extended the reach of specialized care, and moved the field closer to personalized medicine.

These advancements have been made possible by improvements in digital technology and near ubiquitous access to the Internet and Internet-accessible personal devices for children across the developmental spectrum and their families.

This Special Issue will explore a range of digital advancements in the psychological assessment and treatment of pediatric chronic illness with the ultimate goal of charting a pathway for new and promising directions for the field.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
