submissions:
closed (1 July 2022)

Message from the Guest Editor

Children and adolescents with chronic health conditions have a significant disease burden and are at risk of several complications and worsened health outcomes. Digital interventions have the potential to improve disease management and optimize health outcomes in these vulnerable patient populations. The value of these interventions has been especially emphasized and recognized during the current COVID-19 pandemic.

This Special Edition will explore a range of digital interventions for children and adolescents with chronic health conditions, and our goal is to update the readers on the evolving and cutting-edge research in the field. Some areas of specific interest include medication adherence, behavior change, preventive measures, disease monitoring, self-management, self-efficacy, health-related quality of life, other patient-reported outcomes, social media, and peer support.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MI 65201, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
