1. Department of Anesthesiology Critical Care Medicine, Children's Hospital Los Angeles, Keck School of Medicine at the University of Southern California, Los Angeles, CA, USA
2. Spatial Sciences Institute at the University of Southern California, Los Angeles, CA, USA

Deadline for manuscript submissions:  
**closed (15 December 2022)**

### Message from the Guest Editors

Dear Colleagues,

Medical, surgical, and public health innovations have changed the epidemiology of health among neonates, infants, and children. Pediatric patients are more complex because of advances in treatments for acute and chronic health conditions. The changing landscape of health and complexity of pediatric patients extends to the fields of anesthesiology and perioperative and pain medicine. This Special Issue seeks to publish interdisciplinary research that explores the current and future directions of pediatric anesthesiology and perioperative and pain medicine in critical areas of medical practice that have and will continue to shape this field for years to come. We welcome manuscripts that consider the increasing complexity of children requiring anesthesiology and pain and perioperative medicine with a focus on recent evidence-based innovations, technologies, and changes to care paradigms that respond to the evolving landscape of health among children. Literature reviews, original research, and other important commentaries that highlight this work are welcome.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
