Pediatric Vascular Anomalies: Clinical Diagnosis and Treatment

Guest Editors:

Prof. Dr. Jochen Karl Rössler

Division of Pediatric Hematology and Oncology, Department of Pediatrics, Inselspital, Bern University Hospital, University of Bern, 3012 Bern, Switzerland

Dr. Friedrich Kapp

Department of Pediatric Hematology and Oncology, Center for Pediatrics, Medical Center, University of Freiburg, 79106 Freiburg, Germany

Deadline for manuscript submissions:

closed (20 March 2022)

Message from the Guest Editors

Dear Colleagues,

It is a great honor to invite you to collaborate on this first Special Issue on Pediatric Vascular Anomalies. We are hoping to leverage the experience of seasoned clinicians and emerging young talent around the world to build an exciting issue with interesting contributions.

We are hoping to create a broad-based, international, and interdisciplinary collection of manuscripts on the most pressing problems in Pediatric Vascular Anomalies. The diagnosis of most vascular anomalies is realized at the pediatric age. Most of them are very rare. In the last few years, new medical treatments have entered the field of vascular anomalies, which has been dominated for many years by surgical, interventional radiological, and other local therapeutic approaches. Lately, a personalized medical strategy has been possible due to new findings in biology and genetics regarding vascular anomalies.

Our vision is to update the diagnostic and therapeutic measures used to treat vascular anomalies, and for this we need your expertise.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
