

Special Issue

Psychosocial Functioning in Childhood Cancer

Message from the Guest Editors

What has not changed is the fact that pediatric cancer is about more than biology. It is also about emotional, social, and spiritual well-being for children and their families both during and after cancer therapy. For example, pediatric cancer is universally stressful. Patient survivors may experience significant physical and psychosocial morbidities. Siblings, parents, and family units may be irrevocably impacted by changing family dynamics and economics. Fortunately, not all psychosocial outcomes are poor. Many patients and families demonstrate remarkable resilience. It is time to embrace psychosocial wellbeing as a fundamental element of pediatric cancer care. This Special Issue of Children is dedicated to describing achievements and persistent gaps in pediatric psychosocial oncology clinical care, education, and research. Both rigorous reviews and original research will be considered.

Guest Editors

Dr. Abby R. Rosenberg

Director, Palliative Care and Resilience Research, Seattle Children's Research Institute, 1900 9th Ave, JMB 10-C, Seattle, WA 98101, USA

Dr. Victoria W. Willard

Assistant Member, Department of Psychology, St. Jude Children's Research Hospital, Memphis, TN

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA
