

Brilliant Young Researchers in Clean Technologies

Collection Editor:

Prof. Dr. Patricia Luis Alconero

Materials & Process Engineering,
UCLouvain, Place Sainte Barbe 2,
1348 Louvain-la-Neuve, Belgium

Message from the Collection Editor

This **Topical Collection** is dedicated to brilliant researchers in the development of clean and novel technologies who have shown a promising curriculum at an early age. Manuscripts covering original research as well as review articles, short communications, and perspective articles are acceptable for submission. If interested, please send your CV and the title and abstract of your work to patricia.luis@uclouvain.be. Outstanding authors will be formally invited.

We look forward to receiving key contributions in the field.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Clean Technologies (ISSN 2571-8797) is an international, open access journal of novel scientific research on technology development aimed at reducing the environmental impact of human activities. *Clean Technologies* publishes reviews, regular research papers, communications and short notes which show a significant advance in the development of sustainable technology that reduces energy consumption, environmental pollution and/or the use of water and nonrenewable resources. Our aim is to encourage scientists to publish their experimental and theoretical research in detail as open access, serving a trustable base of advance for the scientific community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Inspec](#), [AGRIS](#), [RePEc](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Engineering, Environmental*) / CiteScore - Q1 (Environmental Science (miscellaneous))
