

Feature Paper Collection in Bioactive Coatings and Biointerfaces

Collection Editor:

Dr. Alexandra Muñoz-Bonilla
Institute of Polymer Science and
Technology (ICTP-CSIC), 28006
Madrid, Spain

Message from the Collection Editor

This Feature Paper Collection aims at presenting novel approaches, improvements, or cutting-edge developments in the field.

The particular areas of interest for this Feature Paper Collection include but are not limited to:

- Cell–material interactions;
- Bioinspired surface and interfaces;
- Advances in bioactive surfaces characterization;
- Applications of bioactive coatings;
- Antimicrobial coatings, prevention, and control of biofilms.

Feature articles and reviews from top experts are welcome. The criteria mainly include the academic background of the scholar, the publication record, the novelty and significance of content, and the peer-review result of the paper.

In addition, if 10 or more papers are published in this collection, we will make a collection book, and the leading authors of each article will receive a hard copy of this book.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New
Ceramics and Fine Processing,
School of Materials Science &
Engineering, Tsinghua University,
Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam
Mickiewicz University in Poznań,
ul. Wszechnicy Piastowskiej 3, 61-
614 Poznań, Poland

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Surfaces, Coatings and Films*)
