Deadline for manuscript  
submissions:

**31 May 2025**

### Message from the Guest Editors

Dear Colleagues,

The journal *Coatings* publishes scientific articles and communications describing original research and reviews. Now, this international journal is launching a Special Issue relating to ceramic material and glass coatings. The goal of this Special Issue and the main interest is to publish articles on novel science and technology establishing the relationships between composition, mineralogy, microstructure, synthesis, processing and properties of ceramic coatings. Papers may deal with the following topics related to ceramics and glasses: raw materials, wastes, mineralogy, structural, functional, traditional ceramics, composites and cultural heritage.

Prof. Dr. Manuel Miguel Jordan-Vidal

Prof. Dr. María Belén Almendro-Candel

*Guest Editors*

## Editors-in-Chief

### Prof. Dr. Wei Pan

State Key Laboratory of New  
Ceramics and Fine Processing,  
School of Materials Science &  
Engineering, Tsinghua University,  
Beijing 100084, China

### Dr. Emerson Coy

NanoBioMedical Centre, Adam  
Mickiewicz University in Poznań,  
ul. Wszechnicy Piastowskiej 3, 61-  
614 Poznań, Poland

## Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Surfaces, Coatings and Films*)
