

Energy, Material Science and Environmental Engineering

Guest Editor:

Prof. Dr. Jinyang Xu

Faculty of Intelligence
Technology, Shanghai Institute of
Technology, Shanghai 201418,
China

Deadline for manuscript
submissions:

closed (31 August 2022)

Message from the Guest Editor

It is my great pleasure to invite you to the third International Conference on Energy, Material Science, and Environmental Engineering (ICEMSEE 2022, <http://www.icemsee.com>), organized by the Yaseen Academy and to be held on 19-21 August 2022 at the International Academic Exchange Center, Huazhong University of Science and Technology, Wuhan, China.

The conference calls for significant contributions in all major fields of energy, material science, and environmental engineering from theoretical and practical aspects, aiming to provide a platform for researchers and practitioners from both academia and industry to meet and share cutting-edge developments in the field.

ICEMSEE 2022 welcomes the participation and submission of high-quality manuscripts falling into the scope of the *Coatings* journal to be considered for publishing in this Special Issue. Scholars who do not plan to participate in the conference are also welcome to submit their papers.

The major topics covered in ICEMSEE 2022 include, but are not limited to, the following:

- (1) Energy systems and green energy;
- (2) Advanced materials and applications;
- (3) Environmental engineering and protection.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New
Ceramics and Fine Processing,
School of Materials Science &
Engineering, Tsinghua University,
Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam
Mickiewicz University in Poznań,
ul. Wszechnicy Piastowskiej 3, 61-
614 Poznań, Poland

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Surfaces, Coatings and Films)
