Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editor

Dear Colleagues,

We would like to invite you to submit your work to this Special Issue on "Advances in Ceramic Coatings". Ceramic coatings are able to add desirable functions or modify properties without changing the base materials thanks to their unique capabilities. They are attracting increased attention because thin films show significantly different characteristics from bulk material. Fabrication methods and combinations of materials are also important factors that determine the quality of coatings. The aim of this Special Issue is to highlight some of the most recent and most significant contributions to the ceramic coatings field, through a combination of original research papers and review articles from leading groups around the world.

In particular, the topics of interest include but are not limited to:

- Ceramic coatings for severe environmental conditions
- Ceramic coatings for corrosion protection
- Ceramic coatings for nuclear applications
- Ceramic coatings as hydrogen permeation barriers
- Novel techniques of ceramic coating fabrication

Dr. Takumi Chikada

an Open Access Journal by MDPI

## Editors-in-Chief

### Prof. Dr. Wei Pan

State Key Laboratory of New  
Ceramics and Fine Processing,  
School of Materials Science &  
Engineering, Tsinghua University,  
Beijing 100084, China

### Dr. Emerson Coy

NanoBioMedical Centre, Adam  
Mickiewicz University in Poznań,  
ul. Wszechnicy Piastowskiej 3, 61-  
614 Poznań, Poland

## Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Surfaces, Coatings and Films*)
