

## Deposition, Characterization and Application of Anti-corrosion and Lubricating Coatings

Guest Editors:

**Dr. Yiran Wang**

School of Material Science and Engineering, Xi'an Jiao Tong University, Xi'an, China

**Dr. Liang Sun**

Department of Materials Science and Engineering, Xi'an Shiyou University, Xi'an 710065, China

**Dr. Wenyao Zhai**

Department of Materials Science and Engineering, Xi'an Shiyou University, Xi'an 710065, China

Deadline for manuscript submissions:

**closed (31 December 2025)**

### Message from the Guest Editors

The aim of this Special Issue is to understand the basic principles of deposition, characterization and application of anti-corrosion and lubricating coatings.

The scope of this Special Issue will serve as a forum for papers in the following concepts:

- Theoretical and experimental research, knowledge and new ideas in anti-corrosion and preventive coatings mechanisms;
- Recent developments and application in anti-corrosion and lubricating coatings;
- Anti-corrosion and lubricating coatings produced by different processing and deposition methods;
- Understanding the degradation mechanisms of coatings through friction, wear or other dynamic loading condition and corrosion;
- Computer modeling, simulation to predict coating properties, performance, durability and reliability in service environments.

It is our pleasure to invite you to submit your article to this Special Issue. We look forward to receiving your paper for the Special Issue “Deposition, Characterization and Application of Anti-corrosion and Lubricating Coatings” of MDPI’s *Coatings*.

## Editors-in-Chief

### Prof. Dr. Wei Pan

State Key Laboratory of New  
Ceramics and Fine Processing,  
School of Materials Science &  
Engineering, Tsinghua University,  
Beijing 100084, China

### Dr. Emerson Coy

NanoBioMedical Centre, Adam  
Mickiewicz University in Poznań,  
ul. Wszechnicy Piastowskiej 3, 61-  
614 Poznań, Poland

## Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Surfaces, Coatings and Films)
