

Feature Paper Collection (6) of Topic Editors

Guest Editors:

Dr. Gabriela Graziani

Laboratory of
NanoBiotechnology (NaBi),
Rizzoli Orthopaedic Institute,
40126 Bologna, Italy

Dr. Giulia Masi

Department of Civil, Chemical,
Environmental and Materials
Engineering (DICAM), University
of Bologna, via Terracini 28,
40131 Bologna, Italy

Deadline for manuscript
submissions:

2 June 2024

Message from the Guest Editors

Dear Colleagues,

The Feature Paper Collection for Topic Editors is from the Coatings Journal (ISSN 2079-6412) and is dedicated to the publication and discussion of research articles, letters, reviews, and communications on all aspects of science and engineering of coatings, thin and thick films, surfaces, and interfaces.

We welcome reviews and outstanding articles to this Feature Paper Collection to improve the current knowledge on coatings, thin and thick films, surfaces, and interfaces. Manuscripts for this important Feature Paper Collection of Coatings will be accepted by the editorial office, the topic editor, and editorial board members by invitation only.

Thin and thick films

Processes for coating deposition and modification

Functional, protective, and decorative coatings

Dyes, pigments, and their intermediates

Wear, corrosion, erosion

Coatings for high temperature

Film materials for packaging

Fundamental and functional properties of surface and interfaces

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New
Ceramics and Fine Processing,
School of Materials Science &
Engineering, Tsinghua University,
Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam
Mickiewicz University in Poznań,
ul. Wszechnicy Piastowskiej 3, 61-
614 Poznań, Poland

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Surfaces and Interfaces*)
