Instituto Pluridisciplinar,  
Universidad Complutense, 28040  
Madrid, Spain

Deadline for manuscript  
submissions:

**31 December 2024**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Colloids and Interfaces* is dedicated to recent advances in the various research areas of colloids and interfaces and comprises a diverse selection of exclusive papers of the Editorial Board Members (EBMs) of this journal. It is a continuation of the recent successful activity in 2024. Once again, the focus of this Special Issue is on highlighting recent interesting investigations conducted in the laboratories of our journal's EBMs. It represents our young journal as an attractive open access publishing platform for research in the field of colloids and interfaces.

Dr. Reinhard Miller  
Prof. Dr. Ramón G. Rubio
