

Special Issue

Recent Advances in Emulsions and Applications

Message from the Guest Editors

Emulsion science and technology have been used for a long time to create a wide variety of commercial emulsified products, including food, pharmaceutical, and cosmetic products. Moreover, this type of colloidal system has been used as a vehicle for the encapsulation and delivery of different bioactive compounds, such as antioxidants, vitamins, and fragrances. In the last several years, there have been advances in emulsion science to improve the quality and performance of different emulsion-based products using new techniques and structural design. This new generation of advanced emulsions may lead to products with improved quality and functionality. The development and application of advanced emulsion technologies are considered for this Special Issue. In this context, contributions focused on emulsions stabilized by particle-based emulsifiers (Pickering emulsions), high-internal-phase emulsions, multilayer emulsions, nanoemulsions, multiple emulsions, emulgels, oleogel-based emulsions, bigels, water-in-water emulsions, and novel emulsifiers will be considered. Manuscripts on recent advances in emulsion-based delivery and encapsulation approaches are also welcome.

Guest Editors

Dr. César Burgos-Díaz

Dr. Mauricio Opazo-Navarrete

Dr. Eduardo Morales

Deadline for manuscript submissions

closed (30 April 2023)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Reinhard Miller
Institute for Condensed Matter Physics, Technical University
Darmstadt, D-64289 Darmstadt, Germany

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus /
SciFinder, Inspec, and other databases.

Journal Rank:

CiteScore - Q2 (Chemistry (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 22 days after
submission; acceptance to publication is undertaken in 4.5
days (median values for papers published in this journal in
the second half of 2024).
