

## Special Issue

# Selected Papers from XVI Polish–Ukrainian Symposium on Theoretical and Experimental Studies of Interfacial Phenomena and their Technological Applications

### Message from the Guest Editors

Successive Polish–Ukrainian Symposia are of great tradition and fame as an important scientific event, being the result of extensive and many years' worth of collaboration between scientists from various research centers in Ukraine and Poland. The main aims of these symposia are the development of closer ties between Polish and Ukrainian research groups working in the field of theoretical and experimental studies of surface phenomena and their applications in practice. The main topics of the symposia are: Sorption from gaseous and liquid phases, gas chromatography, ion exchange, heterogeneous catalysis, application of quantum mechanical methods for the study of the surface chemistry of dispersed materials, preparation of new adsorbents, ion exchangers and catalysts, and their application in various techniques, medicine and research practice. The information of the event is posted on the Symposium web-site:  
<http://www.thomascat.info/Symposium.htm>

---

### Guest Editors

Dr. Eugene V. Aksenenko

Prof. Dr. Aleksandra Szcześ

Dr. Barbara Charmas

---

### Deadline for manuscript submissions

closed (30 December 2018)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Dr. Reinhard Miller  
Institute for Condensed Matter Physics, Technical University  
Darmstadt, D-64289 Darmstadt, Germany

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus /  
SciFinder, Inspec, and other databases.

##### Journal Rank:

CiteScore - Q2 (Chemistry (miscellaneous))

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 22 days after  
submission; acceptance to publication is undertaken in 4.5  
days (median values for papers published in this journal in  
the second half of 2024).
