

Special Issue

Selected Papers from XVI Polish–Ukrainian Symposium on Theoretical and Experimental Studies of Interfacial Phenomena and their Technological Applications

Message from the Guest Editors

Successive Polish–Ukrainian Symposia are of great tradition and fame as an important scientific event, being the result of extensive and many years' worth of collaboration between scientists from various research centers in Ukraine and Poland. The main aims of these symposia are the development of closer ties between Polish and Ukrainian research groups working in the field of theoretical and experimental studies of surface phenomena and their applications in practice. The main topics of the symposia are: Sorption from gaseous and liquid phases, gas chromatography, ion exchange, heterogeneous catalysis, application of quantum mechanical methods for the study of the surface chemistry of dispersed materials, preparation of new adsorbents, ion exchangers and catalysts, and their application in various techniques, medicine and research practice. The information of the event is posted on the Symposium web-site:

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Reinhard Miller
Institute for Condensed Matter Physics, Technical University
Darmstadt, D-64289 Darmstadt, Germany

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus /
SciFinder, Inspec, and other databases.

Journal Rank:

CiteScore - Q2 (Chemistry (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 22 days after
submission; acceptance to publication is undertaken in 4.5
days (median values for papers published in this journal in
the second half of 2024).
