Department of Computer
Science, Purdue University Fort
Wayne, IN 46805, USA

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editor

Dear Colleagues,

Bioinformatics is an emerging interdisciplinary field that integrates principles from biological sciences, computer science, mathematics, and information engineering. With advances in high-throughput biological data-generating experiments, high-performance computing is evolving to optimize and accelerate sophisticated algorithms required to meet bioinformatics needs.

This Special Issue focuses on high-performance computational approaches to address problems in biosciences.

an Open Access Journal by MDPI

Editor-in-Chief

40476 Duesseldorf, Germany

Message from the Editor-in-Chief

You are invited to submit the results of your research for consideration and publication in *Computation*, an international open access journal, which is published quarterly online by MDPI.

The editorial board and staff of *Computation* are dedicated to establishing a benchmark journal for the world scientific and engineering communities for original research articles, reviews, conference proceedings (i.e., peer reviewed full articles), and communications, in the cutting-edge areas of computational biology, computational chemistry, and computation in engineering.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, Inspec, dblp, and other databases.

Journal Rank: JCR - Q2 (*Mathematics, Interdisciplinary Applications*) / CiteScore - Q2 (*Applied Mathematics*)
