

Intelligent Edge: When AI Meets Edge Computing

Guest Editor:

Dr. Riduan Abid

TSYS School of Computer
Science, Columbus State
University, Columbus, GA 31907,
USA

Deadline for manuscript
submissions:

30 June 2025

Message from the Guest Editor

This Special Issue investigates the dynamic interplay between artificial intelligence (AI) and edge computing, two revolutionary technologies that are redefining the landscape of modern computing. AI brings the power of both machine learning and intelligent decision making. In contrast, edge computing offers the advantage of localized data processing. This reduces latency by reducing the load on cloud data centers and enhancing data security. The data are processed locally and in a distributed manner, which spreads out the attack surface and reduces the need to transmit sensitive information.

Contributions in this Special Issue explore how AI algorithms can be optimized for edge devices, considering their limited resources. It also delves into how edge computing can facilitate real-time AI applications by processing data closer to its source. Additionally, the Special Issue examines security and privacy concerns in the intelligent edge network, addressing how to safeguard sensitive information in decentralized environments.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Paolo Bellavista

Department of Computer Science
& Engineering (DISI), University of
Bologna, 40136 Bologna, Italy

Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in *Computers* (ISSN 2073-431X). *Computers* is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. *Computers* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

Journal Rank: JCR - Q2 (Computer Science, Interdisciplinary Applications) / CiteScore - Q2 (Computer Networks and Communications)
