

## Computational Methods for Quantum Matter

Guest Editors:

**Dr. Sebastiano Pilati**

School of Science and  
Technology, Physics Division,  
Università di Camerino, 62032  
Camerino, MC, Italy

**Prof. Dr. Bruno Julia-Diaz**

Facultat de Física, Universitat de  
Barcelona, E-08028 Barcelona,  
Spain

**Prof. Dr. Stefano Giorgini**

INO-CNR BEC Center and  
Dipartimento di Fisica, Università  
di Trento, 38123 Trento, Italy

Deadline for manuscript  
submissions:

**closed (31 January 2022)**

### Message from the Guest Editors

In recent years, remarkable experimental breakthroughs achieved with platforms such as atomic gases, trapped ions, and superconducting qubits have allowed for controlled realizations of various intriguing quantum phenomena. These experiments represent the ideal venue to test novel computational methods for quantum many-body systems.

This Special Issue aims to showcase relevant computational studies on quantum matter, highlighting successful applications, recent algorithmic advancements, and also the main open challenges. Contributing authors are invited to elucidate physics insights provided by the employed computational techniques and/or to describe enabling technical developments. The further goals are also to provide the community with helpful information for future computational advancements and to bring the open challenges to be addressed by quantum many-body physicists in the near and the midterm future into the spotlight.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Welcome to *Condensed Matter* (ISSN 2410-3896)! It gives me great pleasure to invite you to publish in the journal. We are looking to build a collection of high quality research articles, supported by a community from across the field of condensed matter physics. In this task, I will be assisted by a highly qualified editorial board. We accept papers on basic research as well as applications, and experimental or theoretical work. Currently the journal is indexed by ESCI (Web of Science) and hope you can consider *Condensed Matter* as an exceptional home for your manuscript.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the first half of 2024).
