Additive Manufacturing: Materials, Processing, Characterization and Applications

Guest Editors:

Dr. Pan Wang

Singapore Institute of
Manufacturing Technology, 73
Nanyang Drive, Singapore
637662, Singapore

Prof. Dr. Takayoshi Nakano

Distinguished Professor in
Division of Materials and
Manufacturing Science, Graduate
School of Engineering, Osaka
University, Suita, Osaka 565-
0871, Japan

Dr. Jiaming Bai

Assistant Professor in
Department of Mechanical and
Energy Engineering, Southern
University of Science and
Technology, Shenzhen 518055,
China

Message from the Guest Editors

This Special Issue intends to address the latest progress in the AM field. Original contributions related to current AM materials and processing for applications are welcome in the form of short communications, full-length articles, and reviews. Potential topics include but are not limited to:

- AM material characterization;
- New materials for AM;
- AM process development;
- Material and microstructural properties evaluation during the AM process;
- Post-processing of AM materials;
- Hybrid AM processes and materials;
- Modeling and simulation of AM processing;
- AM applications;
- Standardization of AM material performance.

Deadline for manuscript
submissions:

closed (31 December 2021)

Department of Physics, University
of Pisa, 56126 Pisa, Italy

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
