Message from the Guest Editors

The Special Issue on “Conducting Ceramics” is intended to provide a unique interdisciplinary international forum aimed at presenting and discussion of results concerning fabrication, characterization and properties of conducting ceramics as well as characterization of devices based on conducting ceramics. Scientists working in a wide range of disciplines are invited to contribute to this issue.

Examples of the topics which may be included in the Special Issue on “Conducting Ceramics” are listed under the keywords.

Deadline for manuscript
submissions:

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
