Pharmaceutical Crystals (Volume III)

Guest Editors:

Prof. Dr. Etsuo Yonemochi

School of Pharmacy and
Pharmaceutical Sciences, Hoshi
University, Tokyo 142-8501,
Japan

Dr. Hidehiro Uekusa

Department of Chemistry, School
of Science, Tokyo Institute of
Technology, 2-12-1 Ookayama,
Meguro, Tokyo 152-8551, Japan

Deadline for manuscript
submissions:

closed (30 December 2023)

Message from the Guest Editors

Dear Colleagues,

We are delighted to invite you to submit an article for the “Pharmaceutical Crystals (Volume III)” Special Issue of *Crystals*. This significant success of the second Special Issue strongly indicates that the field of pharmaceutical crystals is quite attractive for many researchers. In light of this, we have decided to launch a third Special Issue in *Crystals* on “Pharmaceutical Crystals”.

The Special Issue on “Pharmaceutical Crystals” aims to publish novel molecular and crystal structures of pharmaceutical compounds. We especially encourage the submission of works of new crystal structures of APIs, including polymorphs and solvate crystals, and of multicomponent crystals of APIs, including co-crystals and salts, which would be related to changes in the physicochemical properties of pharmaceutical crystals.

This Special Issue demonstrates the importance of crystal structure information in many sectors of pharmaceutical science and engineering, and thus, contributions from both industry and academia are welcome.

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
