### Message from the Guest Editor

We invite investigators to submit papers, which discuss the development of phosphors. The potential topics include, but are not limited to:

- Modeling of phosphors.
- Property characterization and their relationships to external conditions, such as pressure, temperature, etc.
- Advances in development of phosphors.
- Reliability and stability of the phosphors including aging, temperature and UV and VUV excitation, etc.
- Phosphors for improvement of solar cells efficiency.
- Phosphors for detection of high energy radiation
- Applications of phosphors and prototype demonstration.
