Science (NIMS), Tsukuba 305-
0044, Japan

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide a platform for researchers working in thermoelectrics to exchange ideas and report their latest endeavors in advancing this exciting field. We invite researchers to contribute research articles, review papers, and communications related to all aspects of thermoelectrics, including, but is not restricted to, the following:

- Latest development of thermoelectric materials and devices;
- Theoretical understanding/prediction on promising thermoelectrics;
- State-of-the-art characterization and home-built tools for studying/understanding thermoelectric properties;
- Chemical/physical insights into engineering high-performance thermoelectrics;
- Data-driven and machine learning efforts on the discovery of new thermoelectric materials.

an Open Access Journal by MDPI

of Pisa, 56126 Pisa, Italy

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
