Message from the Guest Editors

There has been an avalanche of novel insights pertaining to liver cancer and stage-dependent multimodality treatments. This has been possible with findings stemming from basic science, translational research, and clinical trials. This Special Issue of *Current Oncology* aims to provide reviews on novel insights of liver cancer and its treatment. We invite researchers to address either one of the following topics or a related topic:

- Basic science of hepatocellular carcinoma.
- Translational research.
- Surgical techniques and transplantation.
- Locoregional therapies.
- Systemic therapies.
- Predictive biomarkers.
