submissions:

closed (30 November 2021)

Message from the Guest Editor

This topic concerns at least 30% of the world's young and adult population in its various aspects and causes many medical and social organization problems.

Particular attention should be paid to primary and secondary prevention, with particular focus on adolescents and young adult age groups and, also, to the finalization and development of clear and organic therapeutic protocols that can mitigate the serious functional and aesthetic consequences that a late or incomplete therapeutic approach often can cause. With this Special Issue, we wish to collect the best current contributions in this wide field of study with particular attention to the treatment of injuries involving pulp and supporting tissues (avulsions and luxations) and in the selection and adoption of effective protective systems (mouth guard) to soften the consequences of such serious injuries at any age and condition of use (sport typology). With these contributions, this Special Issue plans to clarify the state of research in the field of oral bacterial flora in athletes and its influence in response to the aforementioned traumatic events.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, ESCI (Web of Science), PubMed, PMC,** and **other databases.**

Journal Rank: JCR - Q2 (*Dentistry, Oral Surgery and Medicine*) / CiteScore - Q2 (*General Dentistry*)
