### Message from the Guest Editor

Dear Colleagues,

Endodontics is becoming minimally invasive. Maximum respect for the original dental tissues influences the development of new clinical protocols and instruments. However, appropriate shaping, complete disinfection, and tridimensional filling of the root canal system are still essential.

All new technologies are focused on the maintenance of the tooth structure and the regrowth of new biological tissues through regenerative endodontic procedures (REPs). At the same time, research is focused on a general simplification of the operative procedures, improving the patient experience, and long-term clinical outcomes.

Both researchers and clinicians should share their experience and know the real potential of the new endodontic technologies. The present Special Issue will provide a scientific update of the new endodontic materials, clinical protocols, applications, and outcomes. The topics are focused on modern materials and techniques proposed for shaping, disinfection, and filling, as well as vital pulp therapy and regenerative procedures. Endodontics is changing and new technologies are leading this change.

Dr. Mario Alovisi

## Editor-in-Chief

### **Prof. Dr. Claude Jaquiéry**

Department for Cranio-Maxillo-Facial Surgery, University Hospital Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

## Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, ESCI (Web of Science), PubMed, PMC,** and **other databases.**

**Journal Rank:** JCR - Q2 (*Dentistry, Oral Surgery and Medicine*) / CiteScore - Q2 (*General Dentistry*)
