

## Special Issue

# Diabetes Technology Trends: Latest Innovations and Future Perspectives

### Message from the Guest Editors

As of a *Diabetology* Special Issue, titled “Diabetes Technology Trends: Latest Innovations and Future Perspectives”, I invite you to submit an original research article, systematic review, narrative review, or communication on this topic. In this Special Issue of *Diabetology*, we invite researchers to submit their works on the development, testing, and implementation of a culture of technology applied to diabetes as a tool to achieve optimal management and improve the quality of life for people living with diabetes. Furthermore, it is essential to note that in many professional fields, technology is becoming the key to achieving excellent results and overcoming barriers, as demonstrated by the numerous professional athletes who have won Olympic medals and other accolades. The official deadline for paper submission is 20 April 2026, and instructions on how to proceed with writing will be available on a dedicated webpage. Research areas may include (but are not limited to) the following:

- Technological innovation;
- Insulin pumps;
- Glucose sensors;
- Integrated intelligent systems;
- Devices;
- Pharmaceutical technologies;
- Artificial intelligence applications;
- Innovation in communication.

---

### Guest Editors

Dr. Sandro Gentile

1. Internal Medicine, Department of Precision Medicine, Vanvitelli University of Naples, Naples, Italy

2. Research Department, Nefrocenter Research Network, Torre del Greco, Italy

Dr. Felice Strollo

Endocrinology and Diabetes Department, IRCCS, San Raffaele Pisana, 00163 Rome, Italy
