submissions:

31 August 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to provide a comprehensive overview of the current laboratory testing methods and technologies used in the diagnosis, monitoring, and management of kidney diseases. This Special Issue will cover a wide range of topics, including the evaluation of kidney function, the assessment of renal injury, the detection of specific biomarkers, and the use of novel diagnostic approaches. The scope of this Special Issue also encompasses the application of laboratory testing in the early detection and prevention of kidney diseases, as well as its role in guiding treatment decisions and predicting patient outcomes. Overall, this Special Issue seeks to highlight the critical role of laboratory testing in the care of patients with kidney diseases and to promote the advancement of diagnostic tools and strategies in this field.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
