Deadline for manuscript
submissions:

31 October 2024

Message from the Guest Editor

Hypertension, a pervasive and potent risk factor for cardiovascular diseases, affects a significant proportion of the adult population worldwide. Despite its prevalence, hypertension remains underdiagnosed and poorly managed in many settings, leading to substantial morbidity and mortality. This Special Issue aims to address these challenges by presenting cutting-edge research and comprehensive reviews that enhance our understanding of hypertension and provide innovative strategies for its management. The issue will cover a broad spectrum of topics, including advances in diagnostic tools, insights into the pathophysiology of hypertension, novel therapeutic targets and the effectiveness of current treatment strategies. It will also delve into the role of lifestyle modifications and the importance of patient education and adherence in managing hypertension. By fostering a deeper understanding of these aspects, this issue aspires to bridge the gap between research and clinical practice, ultimately improving patient outcomes in hypertension management.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
