Message from the Guest Editors

Dear Colleagues,

Our goal for this Special Issue is to provide a broad spectrum of studies on the diagnosis and management of pancreases diseases—from benign to malignant. Submissions should focus on a specific pancreas etiology and demonstrate evidence-based medicine related to the diagnosis and management of that specific disease process. We encourage authors to include references from the last 5–10 years.

We hope that this special edition will be helpful in educating our readers and providing a current perspective on hot topics in this field.
