## AI/ML-Based Medical Image Processing and Analysis

Guest Editors:

### Dr. Jaafar M. Alghazo

Department of Computer Engineering, Virginia Military Institute, Lexington, VA 24450, USA

### Dr. Ghazanfar Latif

1. Deanship of Research & Graduate Studies, Prince Mohammad bin Fahd University, Al Khobar 31952, Saudi Arabia  
2. Department of Computer Sciences and Mathematics, Université du Québec à Chicoutimi, 555 boulevard de l'Université, Québec, QC G1V 0A6, Canada

Deadline for manuscript submissions:

**closed (31 March 2023)**

### Message from the Guest Editors

AI/ML-based medical image processing and analysis are becoming increasingly important with advances in the use of image processing and analysis in the automated recommended diagnosis of medical conditions. Medical professionals and medical institutions are not only ready to accept machine learning (ML)- and artificial intelligence (AI)-enabled medical devices, but they are also eagerly awaiting devices that could potentially ease the load on professional medical personnel and increase accuracy of diagnosis, as well as provide a means for early diagnosis and intervention. The U.S. Food and Drug Administration has already approved many AI/ML-enabled medical devices, listed in <https://www.fda.gov/medical-devices/software-medical-device-samd/artificial-intelligence-and-machine-learning-aiml-enabled-medical-devices>. Researchers are encouraged to continue in this field of study and continue with patentable methods and devices that could be potentially approved for use in medical institutions.

## Editor-in-Chief

### Prof. Dr. Andreas Kjaer

Department of Clinical  
Physiology, Nuclear Medicine &  
PET National University Hospital,  
Rigshospitalet, University of  
Copenhagen, Blegdamsvej 9, DK-  
2100 Copenhagen, Denmark

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
