### Message from the Guest Editors

In this Special Issue on fungi, we invite reviews and original articles that include—but are not limited to—the following:

1. Advances in our knowledge of the genetics and microbiologic mechanisms by which fungi resist destruction.
2. New insights into human immune response and the mechanisms by which fungi are able to evade this.
3. New diagnostic and therapeutic platforms in managing these fungal infections.
4. New paradigms of multidisciplinary management of fungal infections.
5. Potential therapeutic strategies that may augment the current strategies.
